Horizon/Livestrong

T101
EX-59
LS9.9E
LS780T

Note: Sometimes you may see the Sears Canada model number with an extra zero at the end. So the 30130 would look like 301300. The extra digit is considered a revision change for any engineering changes that affect outlook or function. In the event of a rev change, the last digit may be changed to 1. For example, model 301300 may be changed to 301301.
